N U - S A .

Inspired by the islands scattered along the Indonesian archipelago, the Nusa collection brings together an assortment of outdoor furniture that evokes respite from the harried bustle of life.

The range spans tables, chairs, sofas, and sunbeds—which can be easily combined in multiple configurations to suit any design need. Specially constructed by craftsmen in Indonesia, each piece is designed to be a standout on its own or blend into a gathering. Combining high-quality materials with a considered aesthetic, the Nusa collection serves as the ideal building blocks in creating an oasis of tranquil Island living anywhere in the world.

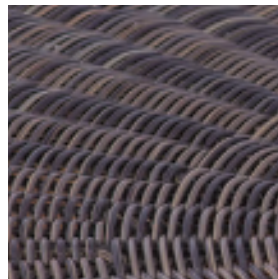

Push past the leaves, and see what lies in store within the collection.

MATERIALS

SOLID TEAK

No stranger to the tropics, solid teak offers a hardy foundation that is naturally resistant to the elements, with a sun-warm, oiled finish that is pleasant to the eye. As a hard wood, teak is long-lasting and resistant to the challenges of any environment or sea spray. Teak brings together the best of both worlds: a sturdy durability that does not compromise on its tactile, dimensional qualities.

SYNTHETIC WICKER

Fibres are woven to form an interesting, textural counterpoint to a teak frame. It provides a sophisticated surface that is lightweight, water resistant, and will not fade or become brittle under the sun's rays. Synthetic wicker is thus an ideal choice for outdoor furniture, requiring minimal care to keep in pristine shape amidst all kinds of weather.

OUTDOOR FABRICS

High-performing outdoor fabrics have been specially curated for the Nusa collection, possessing superior qualities that are well-suited to the outdoors. The acrylic fabric is solution-dyed to ensure the long-lasting vibrancy and evenness of your chosen shade. Designed to be weather-resistant, lightfast and easy to clean, they render upholstered outdoor furniture an effortless possibility.
